Total Inventory Values (KES) by Category

Key Insights

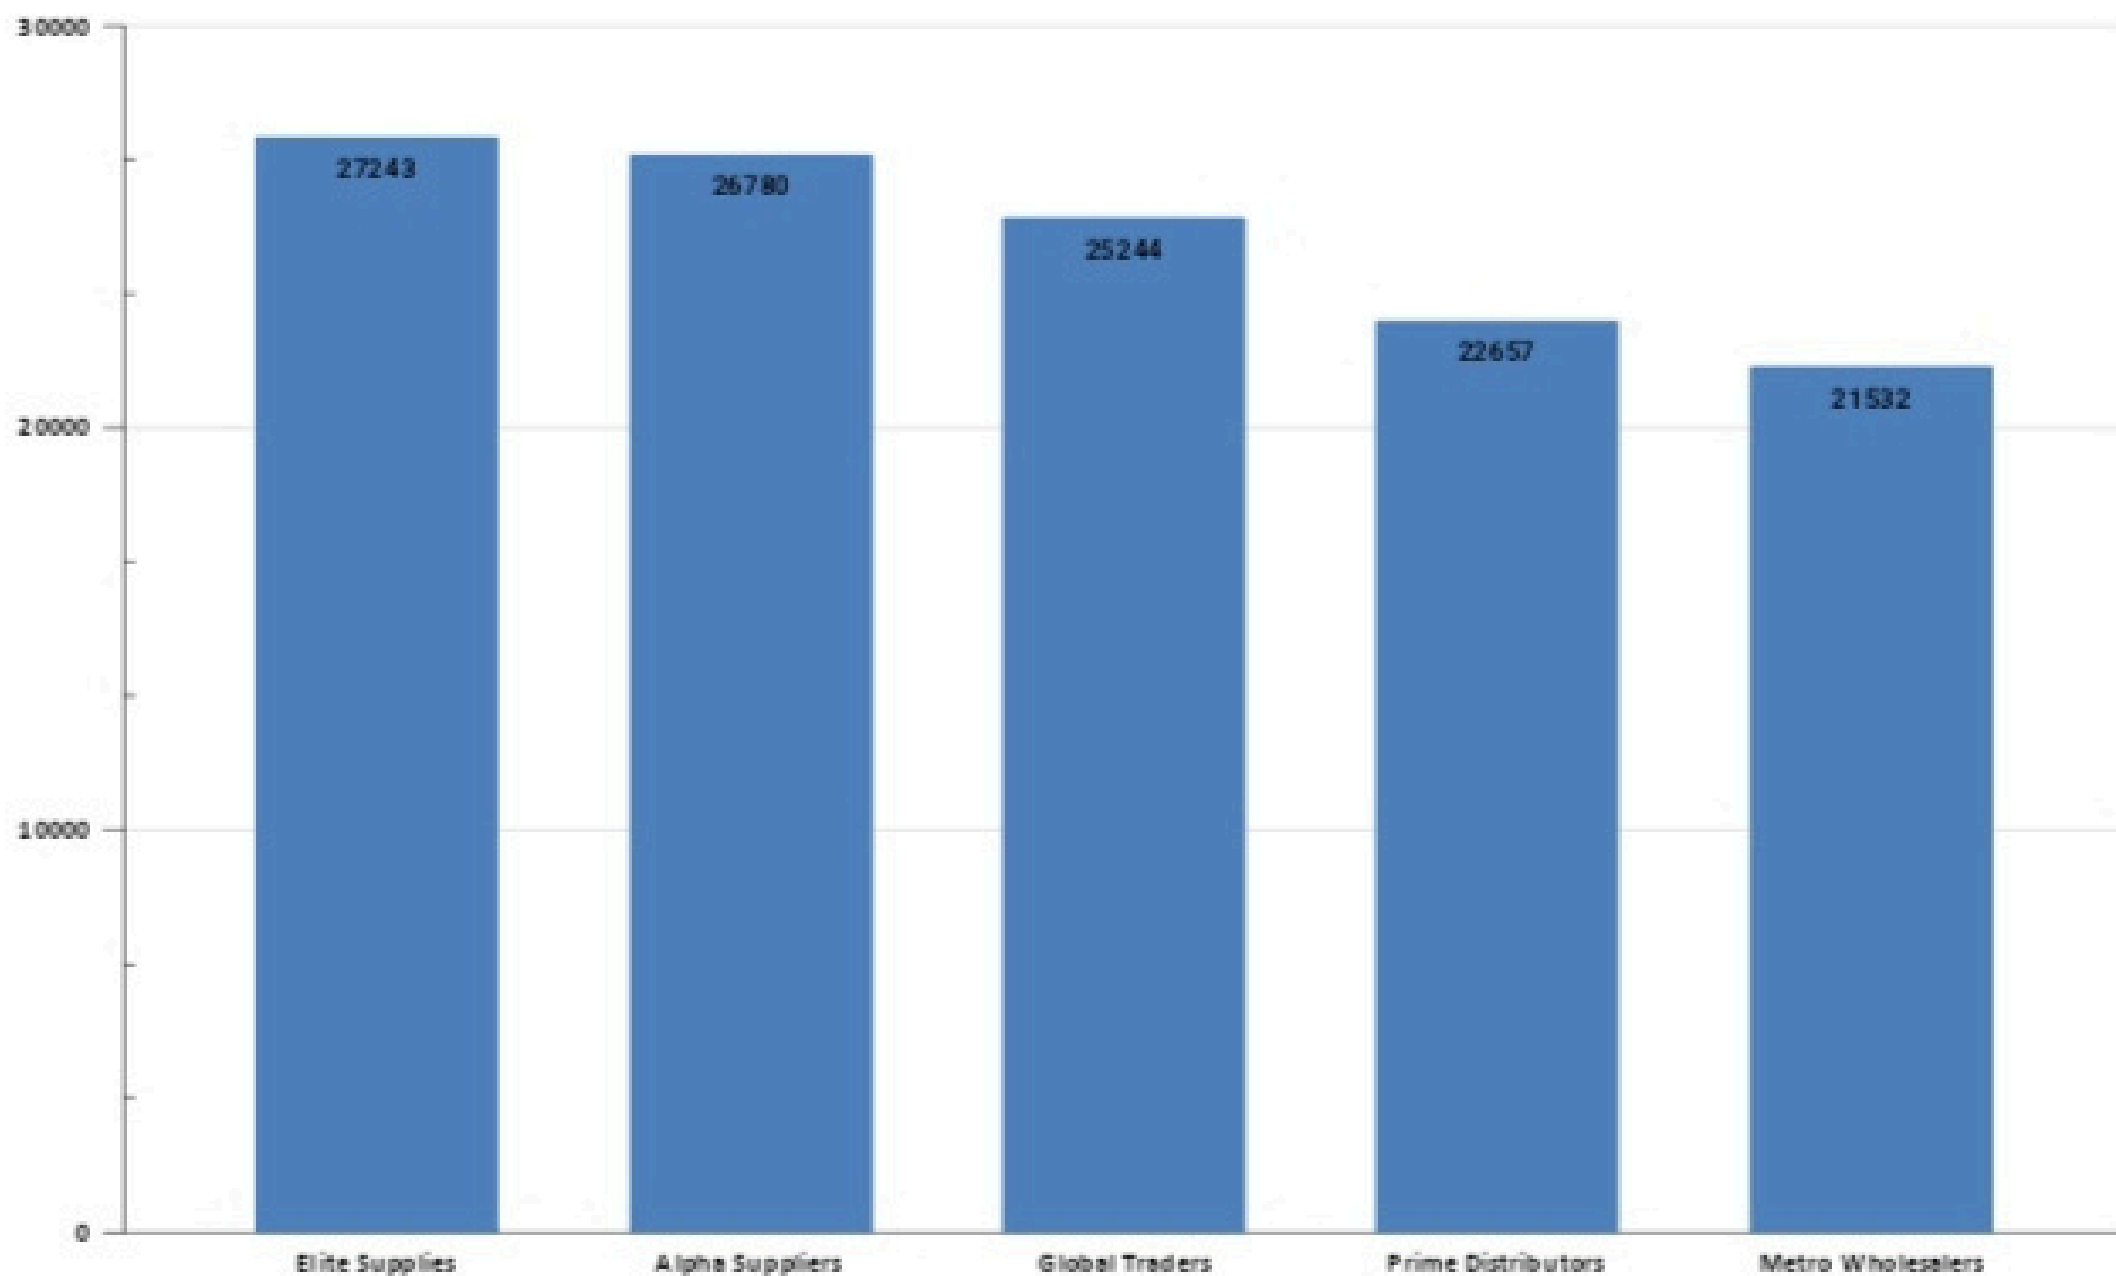

- Groceries generated the highest inventory value
- Office supplies and furniture closely followed the groceries inventory values.
- Electronics generated the lowest inventory value.

Recommendation

Review the inventory levels of Clothing and Electronics to ensure they align with business demand and stocking objectives.

Total Units in Stock by Supplier

Key Insights

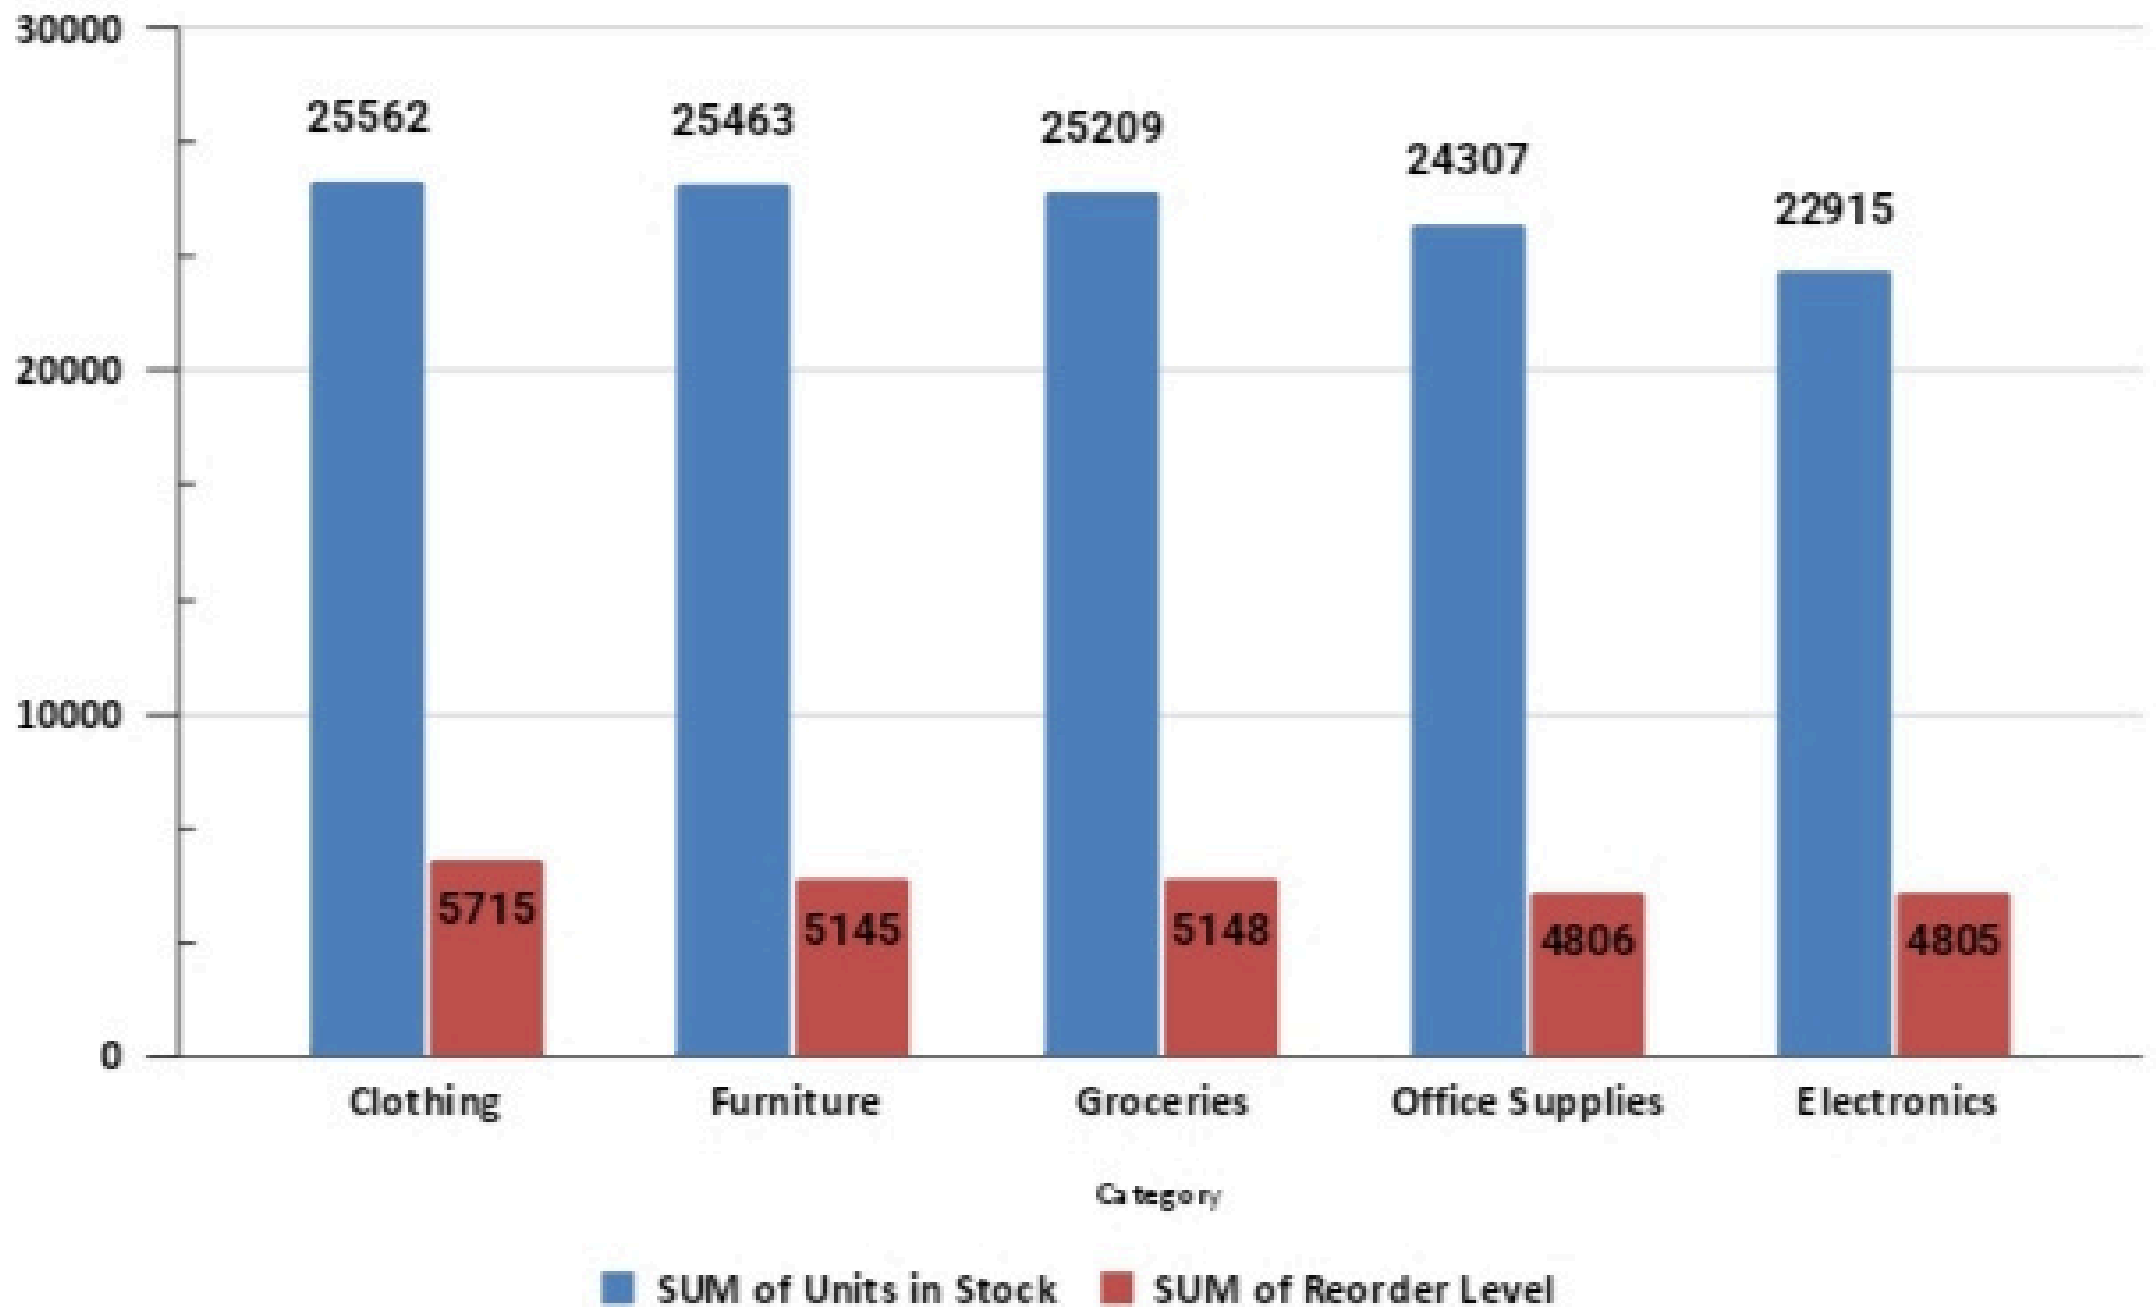

- Elite Supplies maintained the highest units in stock, closely followed by Alpha Suppliers and Global Traders.
- Prime Distributors and Metro Wholesalers recorded the lowest units in stock.

Recommendation

Review inventory supplied by Prime Distributors and Metro Wholesalers to ensure stock levels meet customer demand.

Total Units in Stock and Reorder Level by Category

Key Insights

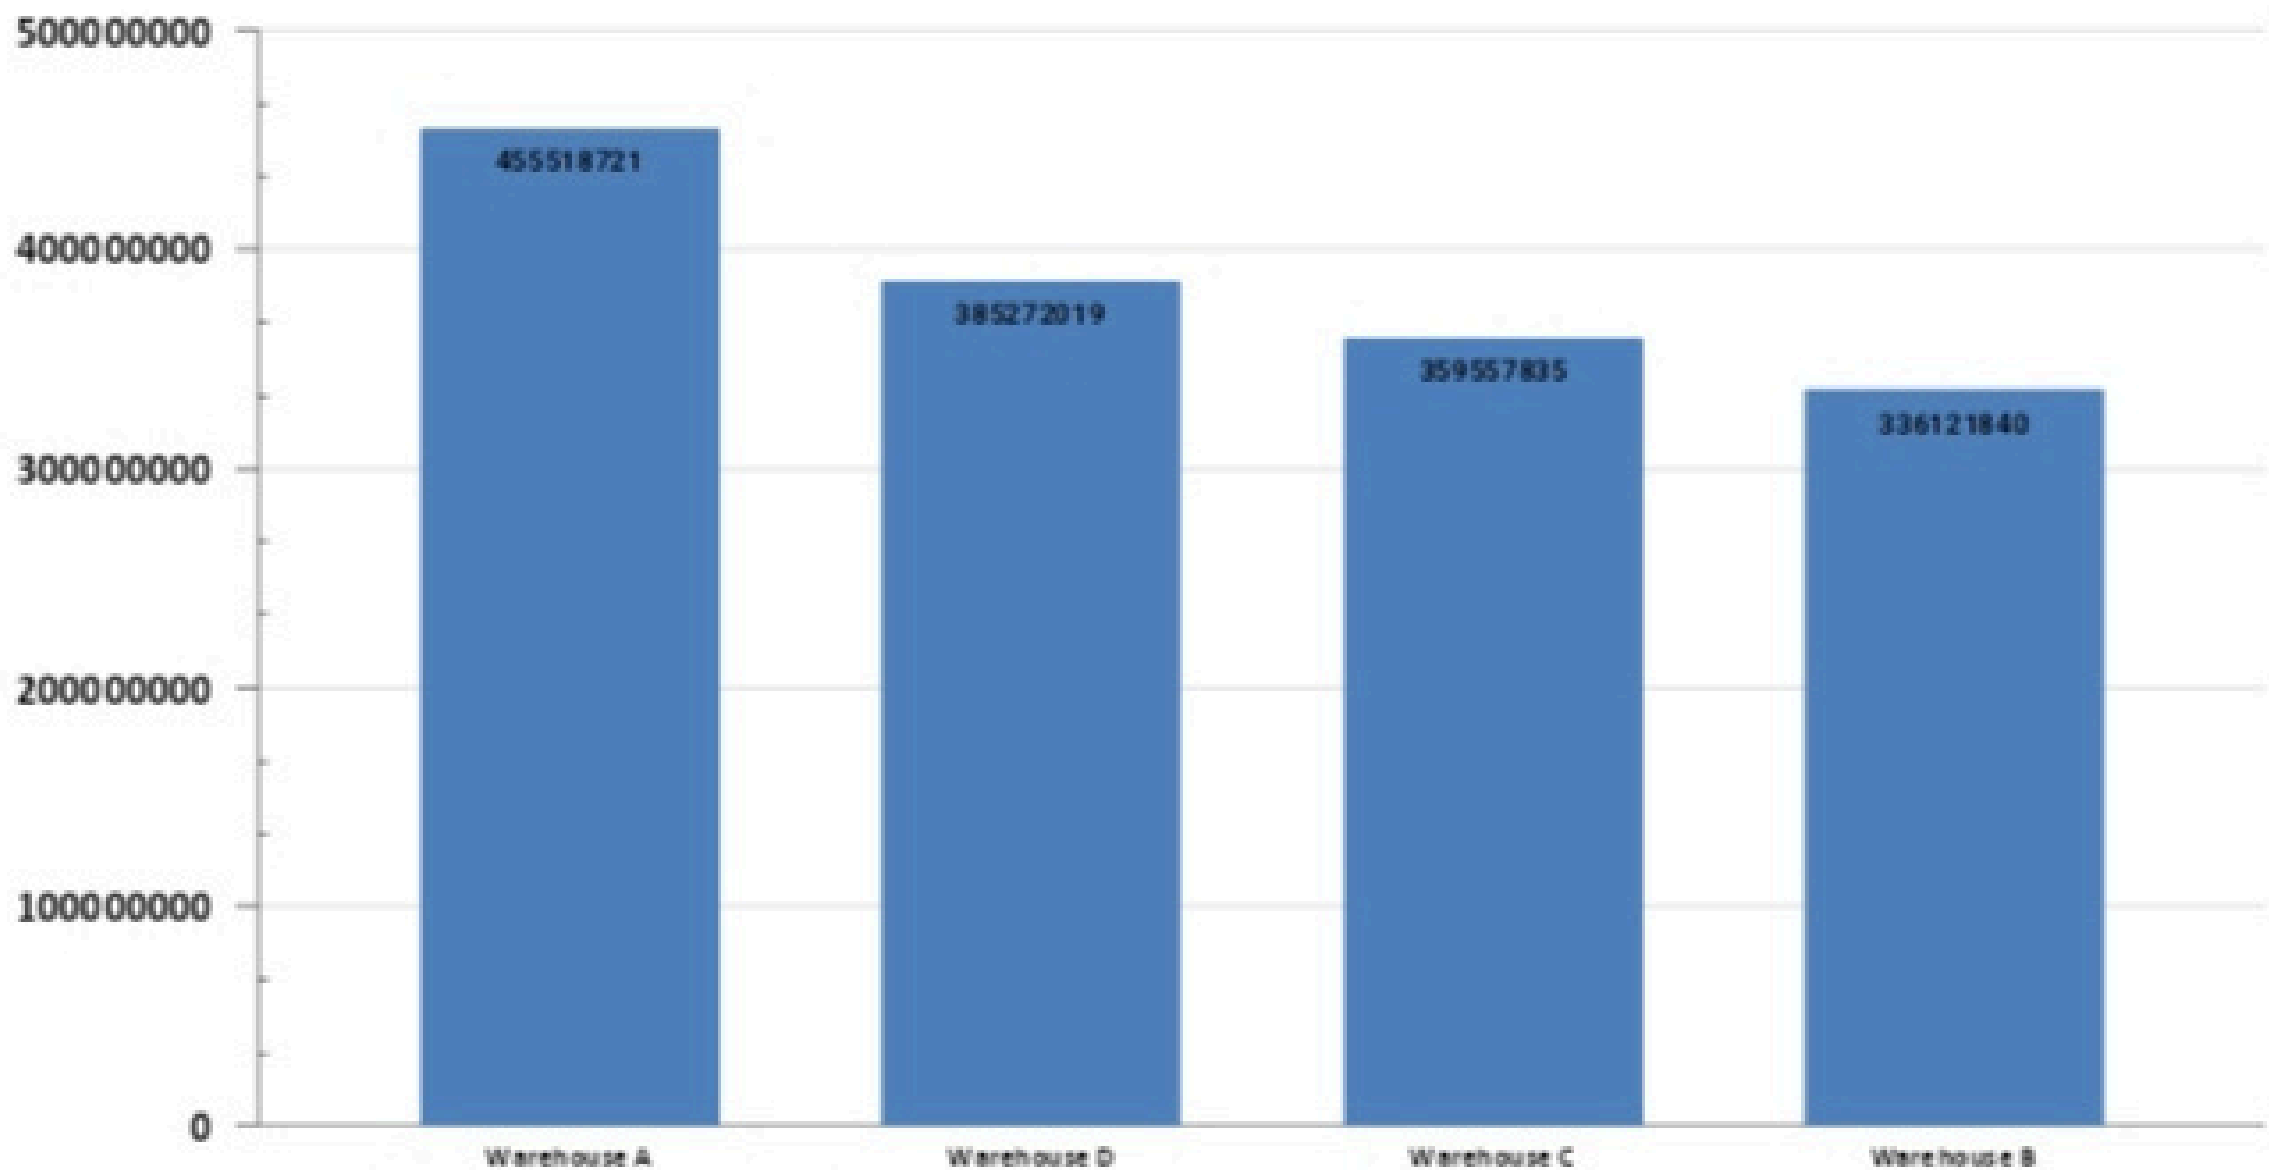

- Clothing recorded the highest units in stock, while Electronics had the lowest. Furniture and Groceries closely followed Clothing.
- Clothing also had the highest reorder level, indicating it requires more frequent restocking than the other categories

Recommendation

Ensure stock and reorder levels for Electronics and Office Supplies are sufficient to meet customer demand.

Total Inventory Value by Warehouse

Key Insights

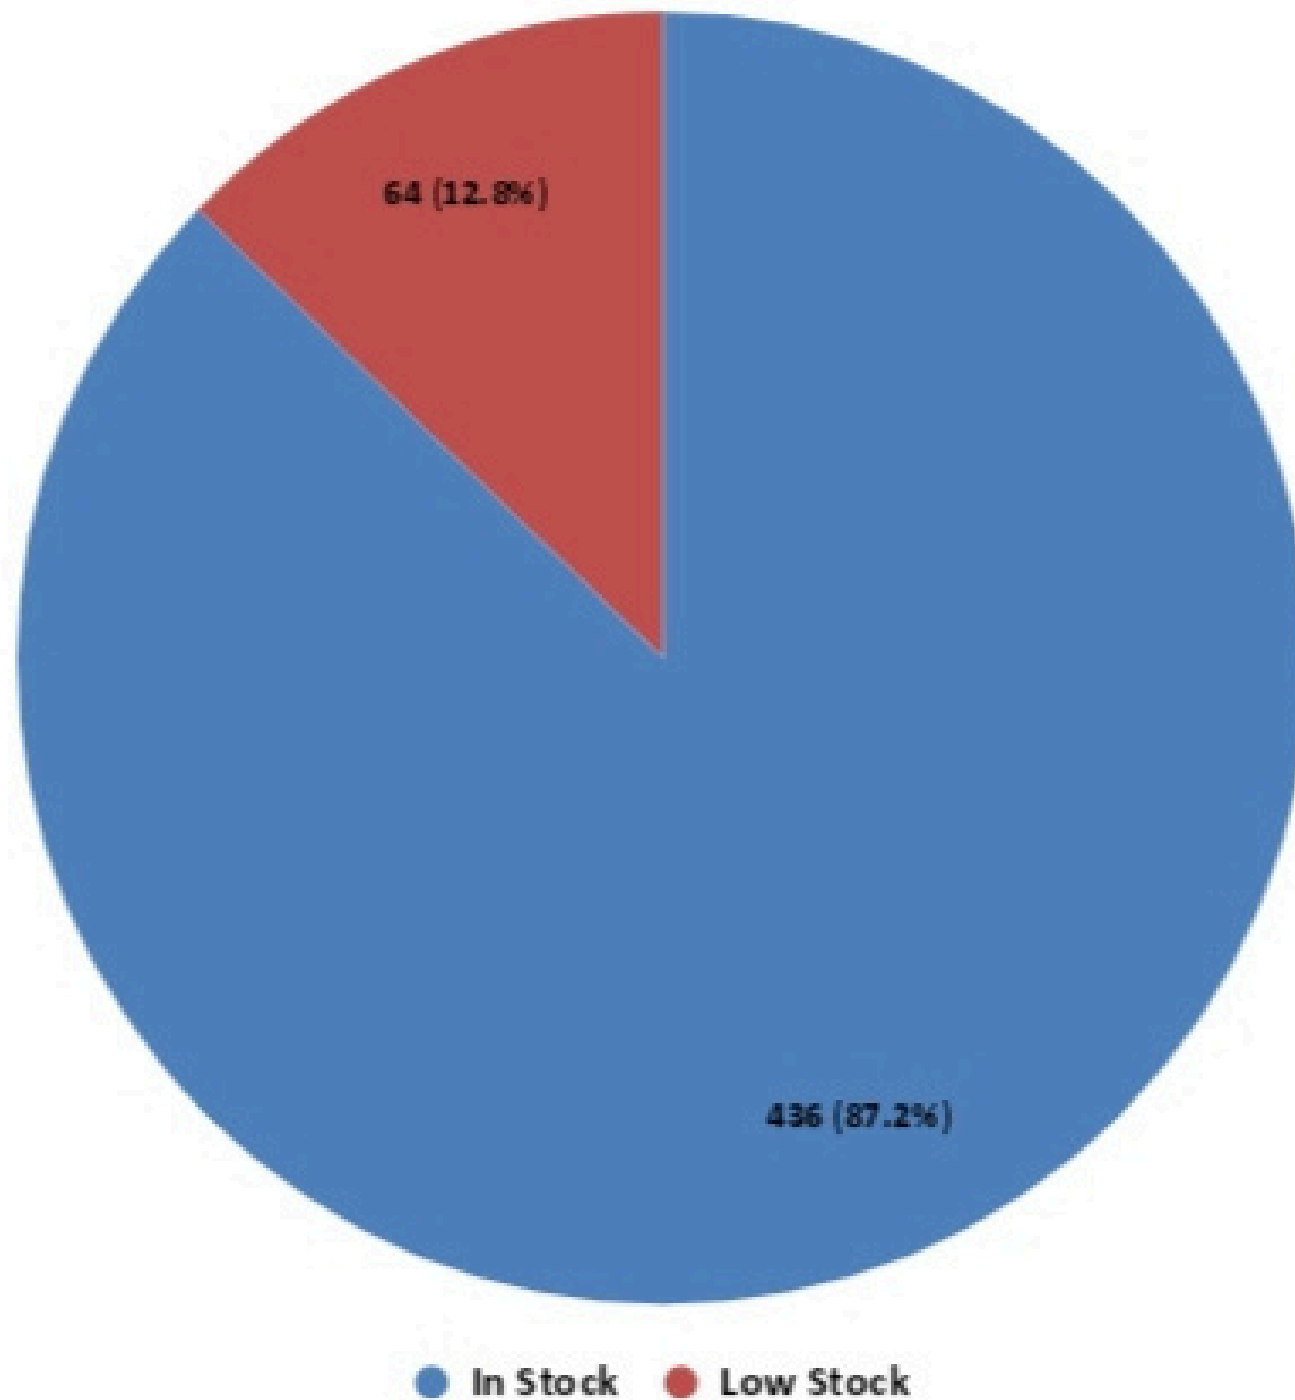

- Warehouse A recorded the highest inventory value, followed by Warehouses D and C.
- Assess whether Warehouse B's inventory allocation aligns with business demand

Recommendation

Assess whether Warehouse B's inventory allocation aligns with business demand.

Inventory Status Distribution

Key Insights

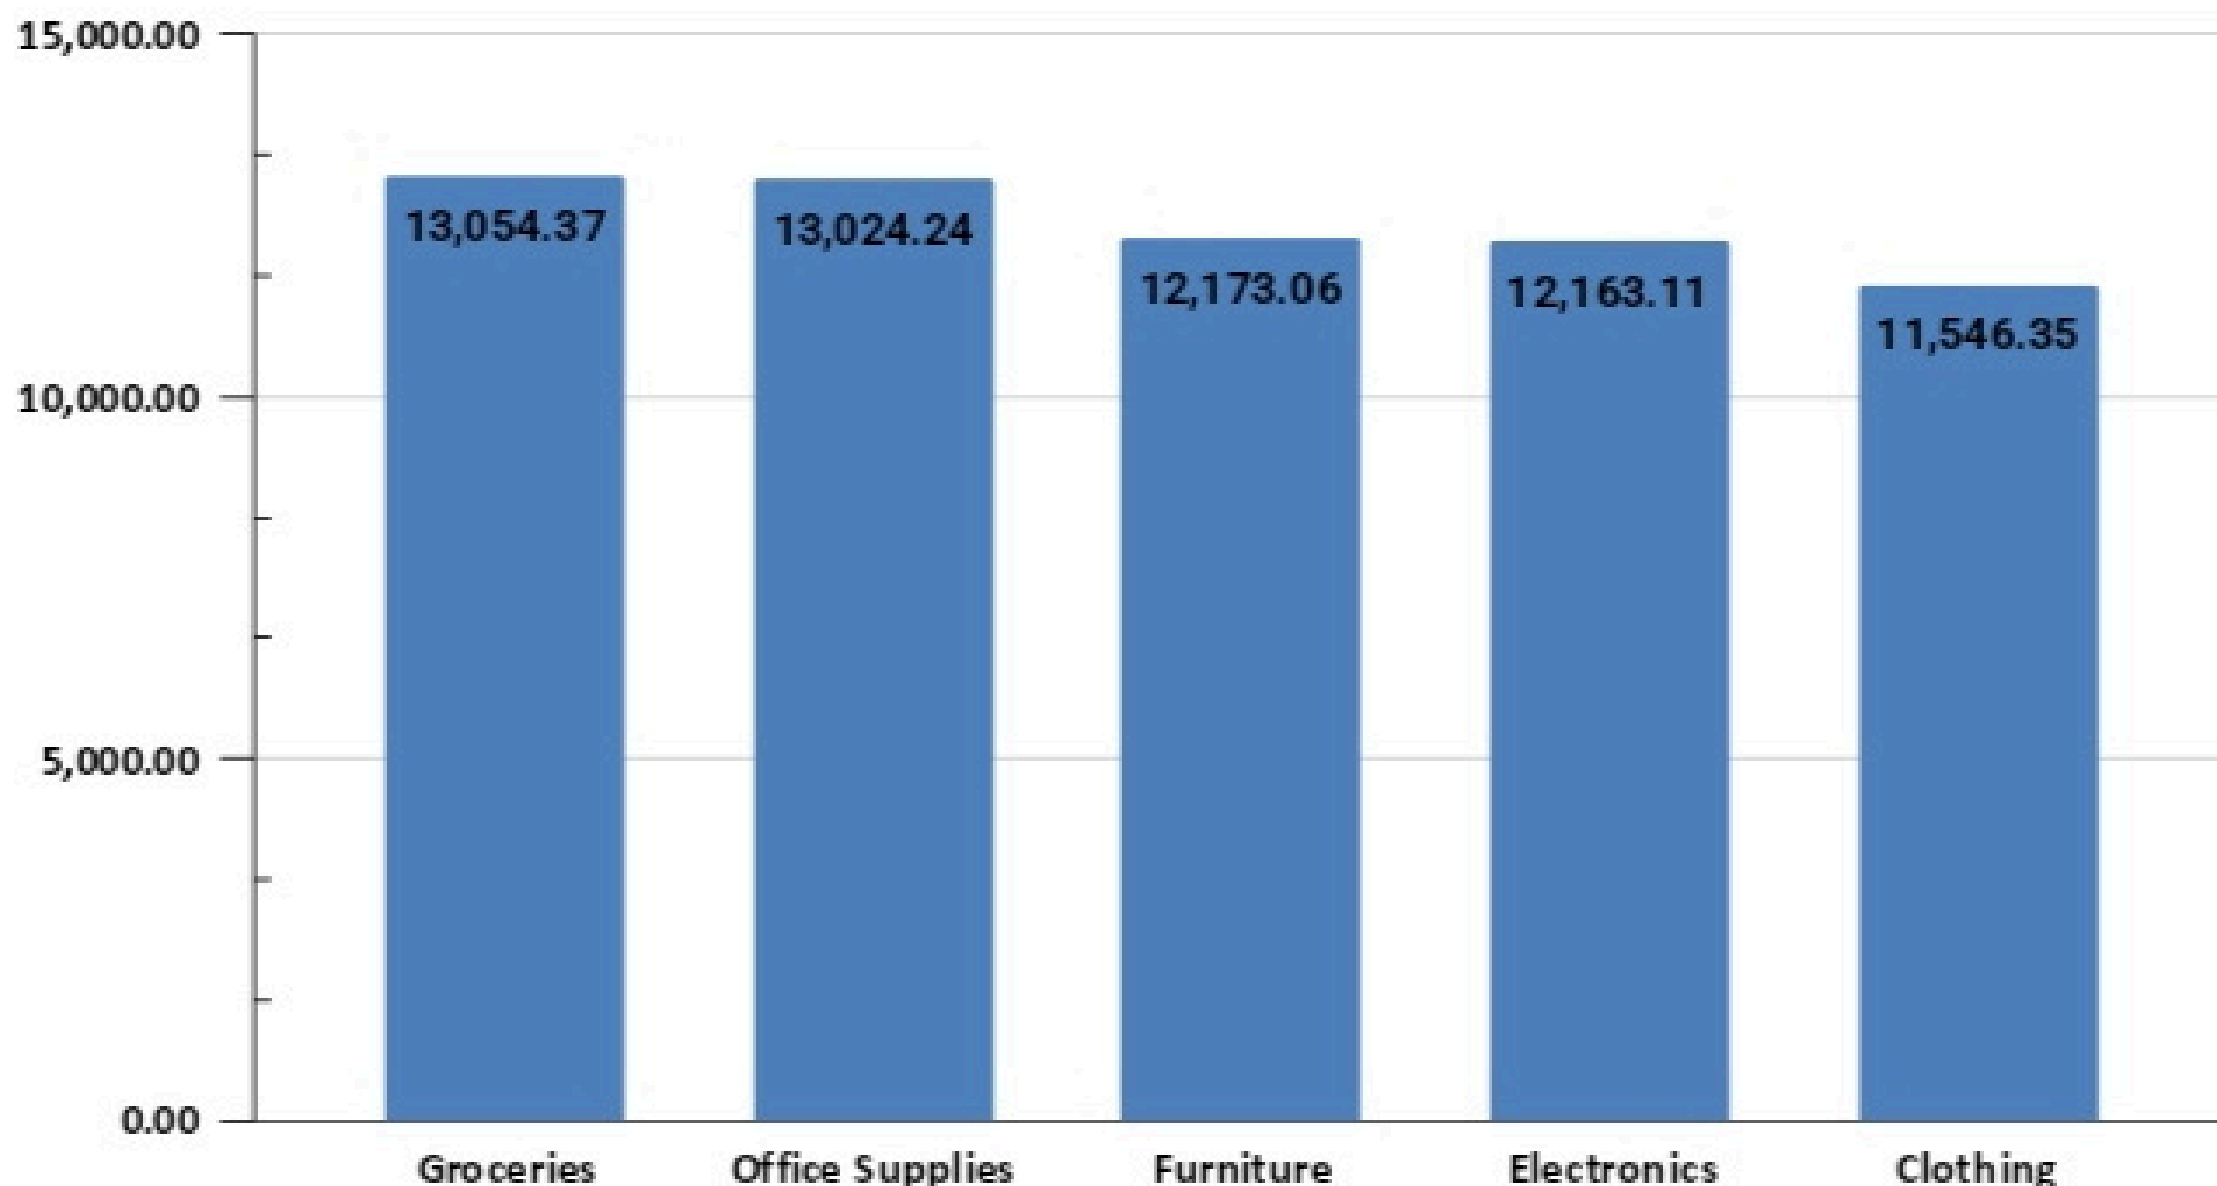

Most inventory records are classified as In Stock (87.2%), while 12.8% are Low Stock

Recommendation

Check whether low-stock items can meet expected customer demand and restock where necessary.

Average of Unit Cost by Category

Key Insights

- Groceries had the highest average unit cost at KES 13,054.37, closely followed by Office Supplies at KES 13,024.24.
- Clothing had the lowest average unit cost at KES 11,546.35.

Recommendation

Identify what is driving Clothing's lower unit cost and determine whether any pricing or sourcing changes are needed.
